PARTNERING WITH OUR NEIGHBOR NWS SEAL BEACH

MEDIA RELEASE

FOR IMMEDIATE RELEASE: March 16, 2018

YOUR INPUT MATTERS! You are invited to public meeting regarding compatibility planning around Naval Weapons Station Seal Beach.

The City of Seal Beach, in cooperation with Naval Weapons Station (NWS) Seal Beach, the City of Long Beach, and other agencies and organizations in the region, is preparing a Joint Land Use Study (JLUS) to address compatibility planning around NWS Seal Beach both on land and within the waterway. The primary goal of the JLUS is to reduce current and potential conflicts between NWS Seal Beach and surrounding jurisdictions while accommodating new growth and economic development, sustaining economic vitality, protecting public health and safety, and sustaining the operational missions of NWS Seal Beach. The JLUS will look at 25 compatibility factors (topics), identify existing and potential issues under the applicable factors, and provide strategies to address the issues.

Please join us at one of two upcoming Public Meetings to learn about the JLUS process and the compatibility issues that have been identified. The open house will begin with a presentation to provide an update on the JLUS process followed by stations, which will be set up with maps, brochures, and a survey to get further input on compatibility issues.

The materials presented will be the same for the two community open houses, but there will be two geographical locations to provide a broader opportunity for attendance.

First Public Meeting:
Date: Wednesday, April 4, 2018
Time: 5:00 pm – 7:00 pm
Location: Marina Center
151 Marina Drive,
Seal Beach CA 90740

Second Public Meeting:
Date: Thursday, April 5, 2018
Time: 5:00 pm – 7:00 pm
Location: Fire Station #48
3131 North Gate Road, Seal Beach CA 90740
