

NATHAN STEELE
Business Owner

I would like to thank all of those who voted in the November election. At 45% of the vote, your trust and support are resounding. I am very grateful.

Though this is a run-off election, I am running on the same message - experienced leadership and common-sense solutions for Seal Beach and Leisure World.

With your support, I will bring professional and real-world experience to the City Council. Working at the executive level of Fortune 500 companies, I helped them solve difficult, seemingly impossible problems through creative and unique solutions. I have also dedicated significant time helping those in need through my mission work in Africa and across the globe. My experience enables me to best serve you.

I am fully prepared to:
Protect Seal Beach and Leisure World from rising violent crime
Support and fully-fund our law enforcement
Fight for local control over housing projects
Protect our community from overdevelopment
Fight against Sacramento's mandates
Advocate for taxpayers and fiscal responsibility

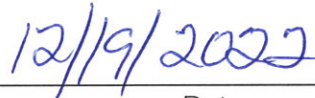

I have a lifetime of service to others. I am prepared to lead. I humbly ask for your vote, once again.
