CONGRESSMAN DAVE MIN PUTS SEAL BEACH AT THE TOP OF HIS FUNDING REQUESTS

SEAL BEACH, CA — The City of Seal Beach and Mayor Lisa Landau are pleased to announce that two major infrastructure projects top Congressman Dave Min's shortlist for Fiscal Year 2026.

The following Seal Beach projects were selected by Representative Min as part of his official funding requests to the U.S. House Appropriations Committee:

San Gabriel River Trash Mitigation Project

Requested Amount: \$1,000,000

This project partners with Assemblymember Diane Dixon's San Gabriel Valley River Working Group seeking to install trash mitigation infrastructure within the San Gabriel River to prevent debris from entering the Pacific Ocean and the public beaches of Seal Beach.

College Park East Stormwater Infrastructure Project

Requested Amount: \$4,800,000

This funding would support the design of modern stormwater infrastructure aimed at resolving chronic flooding in the College Park East neighborhood, home to approximately 1,700 residents.

"We are grateful to Representative Min for recognizing the importance of these projects to our community. These improvements will serve our community for generations," announced Mayor Lisa Landau.

The final funding decision is subject to approval by the U.S. House of Representatives as part of the FY 2026 federal appropriations process. The City and Mayor Landau will continue to advocate with Congressman Min for these projects to be fully funded for Seal Beach.
