New Drinking Fountain at Zoeter Dog Park is Here!

Our Maintenance staff recently completed a two-day project at Zoeter Dog Park to install a brand-new dog drinker and fountain for our four-legged friends and their owners. As part of the project, crews installed a French drain and water line, then poured a new concrete pad to provide a stable foundation. Once the fountain was delivered, staff returned the next day to complete the installation.

The new drinker not only offers fresh water for dogs to stay cool and hydrated but also provides a convenient spot for pet owners to refill their bottles. This improvement is part of the City's ongoing efforts to enhance our parks and create welcoming, functional spaces for the community to enjoy.
