New Evacuation Signs Installed for Emergency Preparedness

As part of the City's ongoing emergency preparedness efforts, Maintenance staff recently installed new evacuation signs for the Police Department in the CPW area along the Caltrans highway. These signs are in place to provide clear guidance in the unlikely event that the bridge becomes inaccessible.

The signage is an important component of the City's tsunami and flood preparation plan, which focuses on ensuring the safety of our community and first responders during emergencies. By clearly marking evacuation routes, we can help guide staff and residents to safety quickly and efficiently in the event of a major event.
