

Mutual 01

Landscaping performed by:
J & J Landscape
Mutuals: 1, 2, 5, 8, 10, 11, 14, 17

Turn off irrigation in areas with turf that is ornamental, continue to irrigate trees (e.g., hand water, water bags, sprinkler isolation techniques (capping sprinklers at edges/away from trees, turning off that do not contribute to tree irrigation, etc.))

Adjust sprinklers to prevent irrigation runoff to hard surfaces

Shut off irrigation during (and at least 48 hours after) rainfall

This exhibit is intended as an illustrative example and not a comprehensive assessment of the mutual's landscape areas and usage

Turn off irrigation in areas with turf that is ornamental

Continue irrigation of areas with turf that are functional

Continue irrigation of planters and shrubs

Additional water saving tips:

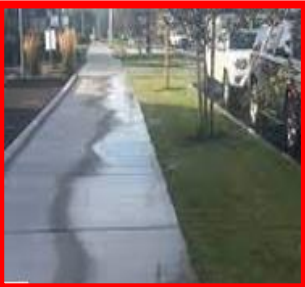

- Mulch trees to promote water absorption and tree health
- Pursue an adopt-a-tree approach to water trees in your mutual
- Use sprinkler isolation techniques and reduce watering times when possible

Landscaping performed by:
Total Landscape
Mutuals: 3, 4, 7

Turn off irrigation in areas with turf that is ornamental, continue to irrigate trees (e.g., hand water, water bags, sprinkler isolation techniques (capping sprinklers at edges/away from trees, turning off that do not contribute to tree irrigation, etc.))

Adjust sprinklers to prevent irrigation runoff to hard surfaces

Shut off irrigation during (and at least 48 hours after) rainfall

This exhibit is intended as an illustrative example and not a comprehensive assessment of the mutual's landscape areas and usage

Mutual 07

Turn off irrigation in areas with turf that is ornamental

Continue irrigation of areas with turf that are functional

Continue irrigation of planters and shrubs

Additional water saving tips:

- Mulch trees to promote water absorption and tree health
- Pursue an adopt-a-tree approach to water trees in your mutual
- Use sprinkler isolation techniques and reduce watering times when possible

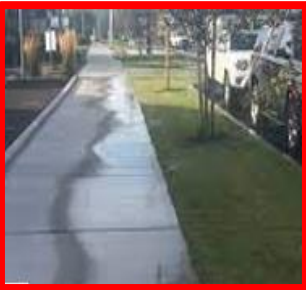

Mutual 08

Landscaping performed by:
J & J Landscape
Mutuals: 1, 2, 5, 8, 10, 11, 14, 17

Turn off irrigation in areas with turf that is ornamental, continue to irrigate trees (e.g., hand water, water bags, sprinkler isolation techniques (capping sprinklers at edges/away from trees, turning off that do not contribute to tree irrigation, etc.))

Landscaping performed by:
Four Stars Landscape
Mutuals: 9 and 12

Turn off irrigation in areas with turf that is ornamental, continue to irrigate trees (e.g., hand water, water bags, sprinkler isolation techniques (capping sprinklers at edges/away from trees, turning off that do not contribute to tree irrigation, etc.))

Adjust sprinklers to prevent irrigation runoff to hard surfaces

Shut off irrigation during (and at least 48 hours after) rainfall

This exhibit is intended as an illustrative example and not a comprehensive assessment of the mutual's landscape areas and usage

Mutual 09

Turn off irrigation in areas with turf that is ornamental

Continue irrigation of areas with turf that are functional

Continue irrigation of planters and shrubs

Additional water saving tips:

- Mulch trees to promote water absorption and tree health
- Pursue an adopt-a-tree approach to water trees in your mutual
- Use sprinkler isolation techniques and reduce watering times when possible

Landscaping performed by:
Anguiano Lawn Care
Mutuals: 6, 15, 16

Turn off irrigation in areas with turf that is ornamental, continue to irrigate trees (e.g., hand water, water bags, sprinkler isolation techniques (capping sprinklers at edges/away from trees, turning off that do not contribute to tree irrigation, etc.)

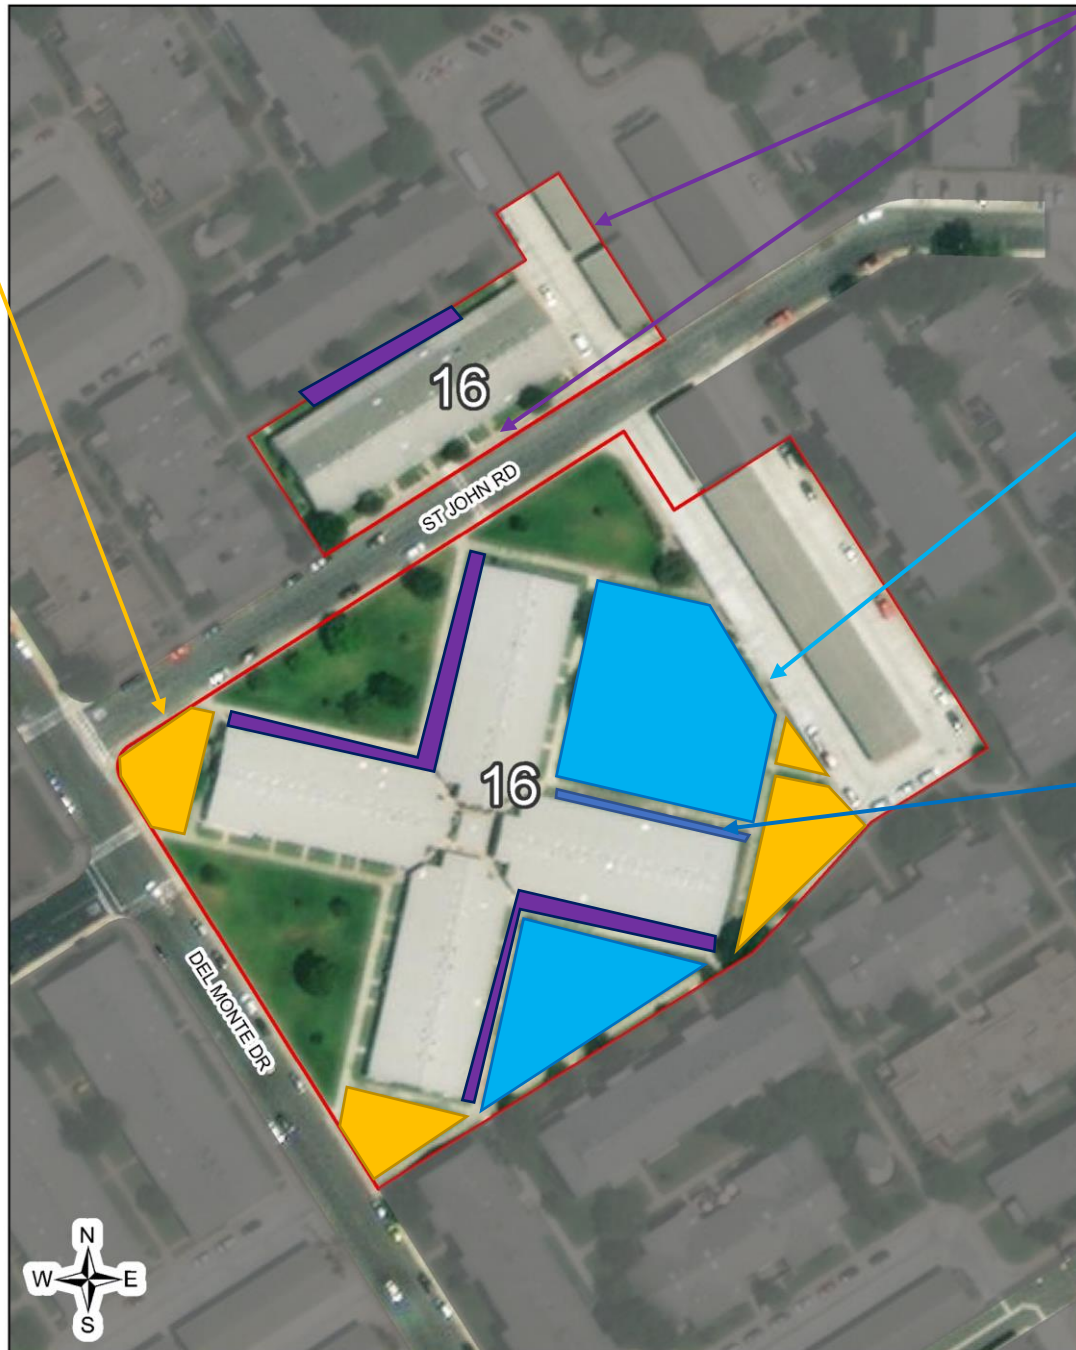

Adjust sprinklers to prevent irrigation runoff to hard surfaces

Shut off irrigation during (and at least 48 hours after) rainfall

Mutual 16

Turn off irrigation in areas with turf that is ornamental

Continue irrigation of areas with turf that are functional

Continue irrigation of planters and shrubs

Additional water saving tips:

- Mulch trees to promote water absorption and tree health
- Pursue an adopt-a-tree approach to water trees in your mutual
- Use sprinkler isolation techniques and reduce watering times when possible
