

CAROLE DAMOCI
Retired Warehouse Manager

Community involvement is important to me. Since moving to Leisure World in 2010 my volunteer work includes: 4 years at LW Library; one term on Mutual Board; 4 years LW Historical Society Board (President 2013-2015); 6 years Golden Rain Board (President 2016-2017); 4 years Golden Age Board (President 2019-2020).

Joining the City Council is my opportunity to represent the needs of the District Two Leisure World, College Park West and Rossmoor Center residents in the decision making body of Seal Beach.

My work history is in Materials Management, Purchasing, Logistics, Planning, and Inventory Control. I have set up 300,000 square foot warehouses in both Colorado and California and negotiated million dollar contracts with trucking companies and unions.

Small businesses are the life and soul of our community. We must do everything we can as a city to help them survive. Financial responsibility and public safety are paramount. Our Police and Fire Departments are top notch and we need to help them stay that way.

I make no decision lightly. Everyone needs to know that their opinions are important and that those opinions have been taken into consideration.

Please feel free to contact me with any questions.
