Honorable Mayor, Members of the City Council and Citizens of the City of Seal Beach:

City of Seal Beach staff is pleased to submit for your information the Comprehensive Annual Financial Report (CAFR) of the City of Seal Beach (City) for the fiscal year ended June 30, 2015. Responsibility for both the accuracy of presented data and the completeness and fairness of the presentation including all disclosures rests with the City. In our opinion, the data is accurate in all material aspects, is presented in a manner designed to fairly set forth the financial position and results of operations of the City, and contains all disclosures necessary to enable the reader to gain an understanding of the City's financial affairs.

The financial statements are prepared in accordance with Generally Accepted Accounting Principals (GAAP) as promulgated by the Government Accounting Standards Board (GASB). This report consists of management's representations concerning the finances of the City. Consequently, management assumes full responsibility for the completeness and reliability of all of the information presented in this report. To provide a reasonable basis for making these presentations, management of the City has established a comprehensive internal control framework that is designed to protect the City's assets from loss, theft, or misuse, and to compile reliable information for the preparation of this report in conformity with GAAP. As Management, we assert to the best of our knowledge and belief, this financial report is complete and reliable in all material respects within the reasonable of internal control framework.

The City's financial statements have been audited by Lance, Soll & Lunghard LLP, a public accounting firm fully licensed and qualified to perform audits of the state and local governments within the State of California. The audit was designed to obtain reasonable assurance about whether the basic financial statements are free of material misstatement. The independent auditor concluded, based on the audit, that there was a reasonable basis for rendering an unmodified opinion that the City of Seal Beach's financial statements for the year ended June 30, 2015, are fairly presented in conformity with Generally Accepted Accounting Principles. The independent auditor's report is presented as the first component of the financial section of this report.

GAAP requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statement in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement MD&A and should be read in conjunction with it. The City's MD&A can be found immediately following the report of the independent auditors in the financial section of the CAFR.

PROFILE OF THE CITY

The City of Seal Beach is located on the coast of northwestern Orange County California, was incorporated on October 25, 1915. The City charter, which was adopted in 1964, established the form of government, states the powers and duties of the City Council, and establishes various City Offices.

The City is operated under the City Council/City Manager form of government, and is governed by a five-member city council elected by district serving four-year alternating terms and who, in turn elect the Mayor and Mayor Pro Tem from among themselves for a one year term. The governing council is responsible for policy-making, passing local ordinances, adopting the budget, appointing committees, and hiring the City Manager and City Attorney.

The City Manager is responsible for carrying out the policies and ordinances of the City Council, for overseeing the day-to-day operations of the City, and for appointing of all department heads. The City Clerk is an appointed position and is responsible for maintaining city records and overseeing elections.

The City provides a full range of services for the citizens utilizing a mix of contracts with other governmental entities or private companies. The City has its own Police Department but contracts for fire and paramedic services through the Orange County Fire Authority (OCFA). The City also operates water and sewer utilities but contracts for refuse and sanitation treatment services.

The Successor Agency to the Seal Beach Redevelopment Agency (Agency) is a component unit of the City. Component units are legally separate entities for which the primary government is financially accountable. The Seal Beach City Council Members, in separate session, serve as the governing body of the Successor Agency and the City Manager serves as the Executive Director.

History of Seal Beach

The City has an area of 13.23 square miles and sits on the coast as the gateway to Orange County between the cities of Long Beach and Huntington Beach. In 1901 J.C. Ord, a Civil War veteran known as "the father of Seal Beach," hired a 30–mule team to bring his small general store building from Los Alamitos to Bay City where he set it down at the southwest corner of crossroads now known as Main Street. J.C. Ord was the first Trustee, the first Mayor, Postmaster, and the first Judge. His store on Main Street was the Post Office and Court House and the jail house when it was necessary.

The population in 1915 was 250 persons, including children. Bay City was renamed Seal Beach in 1916. California Sea Lions, commonly called Seals, were a regular part of the scene along the coast and a perfect name for the new town.

On January 16, 1916, it was reported in the newspaper, the POST, that Frank Burt, who had managed the concessions at the recent Panama Pacific Exposition just closing in San Francisco, was coming to Seal Beach. His purpose was to establish an amusement zone for fun and frolic in this small beach village. The Jewel City Amusement Company was formed and a new 1,865-foot-long pier was constructed in early summer 1916, and is the second longest wooden pier in California. The City became a popular recreation destination in the area, and featured a beach side amusement park before Disneyland was founded.

During World War II, the U.S. Navy purchased 5,256 acres of land and established the Naval Ammunition and Net Depot for storage and loading of ammunition for the Pacific Fleet. The Seal Beach National Wildlife Refuge was established in 1972.

In 1961, Leisure World was built on 541 acres of the Hellman Ranch property and was annexed in 1964. The Rossmoor Business Center was remodeled and now called the Shops at Rossmoor and was annexed by the City in 1962.

In 1964-65, the College Park East and West construction took place.

In 1969, Surfside Colony was annexed into Seal Beach and the City population grew to 24,441 by 1970.

ECONOMIC CONDITIONS

Local economy. Although the focus of this Comprehensive Annual Financial Report is the financial condition of the City at June 30, 2015, it may be best understood when it is considered from the broader perspective of the specific environment within which the City operates.

The City is the home of Boeing Company Integrated Defense System international headquarters, the U.S. Naval Weapons Station, the first Leisure World Retirement Community and the 1,000-acre Seal Beach National Wildlife Refuge. The City's one and a half miles of beaches and the public pier attracts more than 2,000,000 visitors each year making recreation an important factor in the local economy. Seal Beach has a variety of local beach front stores at Main Street which include several fine dining establishments. Throughout the year many exciting community events take place in which the residents, and visitors, enjoy and participate.

Long-term financial planning. The City of Seal Beach economy and tax base continue to stay the course and maintain the present package of core services for our residents, businesses, visitors, and protect all essential municipal services that contribute to the high quality of life within the City.

In FY 2014-2015 the tax revenue declined overall, primarily due decline in the petroleum industry and a decline in the price of oil. Property Tax revenues increased 6% in the General Fund and Sales Tax decreased 10% compared with the projected revenues at the beginning of the FY 2014-2015. The primary reason for the decline in sales tax was a continued slowdown in the fuel and service stations industry.

For the upcoming fiscal year, property taxes are expected to increase as the result of continued improvement in real estate values. On the other hand, continued declines in sales tax is expected from the on-going decline in the price of oil and in the fuel and service stations industry in general.

The Southern California region continues to show signs of improved economic activity. According to local economic updates, Orange County's unemployment rate will continue to decline and the housing market will continue to show improvement. Consumer spending is expected to increase slightly as well.

Major initiatives. The City of Seal Beach will continue to be a major participant in improving ocean water quality as mandated in the Clean Water Act. The City has a National Pollution Discharge Elimination System Program operated for this purpose.

The City has been aggressively seeking and will continue to search for funding sources from other governmental agencies or use non-recurring or future developmental revenues to maintain and improve its infrastructure. The City completed several capital projects throughout the fiscal year, including the completion of the Ocean Alley Utility Replacement, Lampson Avenue Water Well Backup Power, City Yard Building and Roof Remodel, Annual Concrete, Slurry Seal & Paving Projects.

FINANCIAL POLICIES AND PROCEDURES

Internal control structure. Management of the City is responsible for establishing and maintaining an adequate internal control structure. Internal accounting controls are designed to ensure that the assets of the City are protected from loss, theft, or misuse, and that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles.

The internal control structure is designed to provide reasonable, but not absolute, assurance, that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of the control should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits require estimates and judgment by management.

Budgetary controls. The annual budget serves as the foundation for the City of Seal Beach's financial planning and control. The City Council adopts an annual budget and appropriates the funds necessary to provide the services and operations for the fiscal year. The City Manager may make appropriation transfers within and between departments which do not result in an increase in appropriations. The City of Seal Beach City Council must approve all appropriation changes that results in an increase in appropriations.

AWARDS

GFOA Award Program - Comprehensive Annual Financial Report

The Government Finance Officers Association of the United States (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City of Seal Beach for its Comprehensive Annual Financial Report for the fiscal year ended June 30, 2014. This was the fifteenth consecutive year that the City has received this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. City staff believes that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA again this year for award.

ACKNOWLEDGEMENTS

This report was made possible by the highly dedicated Finance staff with their special efforts and the teamwork, special thanks to the staff in the Finance Department. Sincere appreciation is also expressed to the City Council and City Manager for their interest and support, which made this presentation possible; and finally to the City's auditing firm of Lance, Soll & Lunghard, LLP for their professional assistance.

Respectfully submitted,

Victoria L. Beatley

Director of Finance/City Treasurer

INDEPENDENT AUDITORS' REPORT

To the Honorable Mayor and Members of the City Council City of Seal Beach, California

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of City of Seal Beach, California, (the City) as of and for the year ended June 30, 2015, and the related notes to the financial statements. which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

To the Honorable Mayor and Members of the City Council City of Seal Beach, California

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Seal Beach, California, as of June 30, 2015, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Change in Accounting Principle

As discussed in Note 1 to the financial statements, in 2015 the City adopted new accounting guidance, GASB Statement No. 68, Accounting and Financial Reporting for Pensions – An Amendment of GASB Statement No. 27.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, the budgetary comparison schedules for the General Fund, the Citywide Grants Fund, the schedules of proportionate share of the net pension liability and the schedules of plan contributions be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The introductory section, combining and individual nonmajor fund financial statements, schedules and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

To the Honorable Mayor and Members of the City Council City of Seal Beach, California

The combining and individual nonmajor fund financial statements and schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements and are fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

Tance, Soll & Tunghard, LLP

In accordance with *Government Auditing Standards*, we have also issued our report dated November 23, 2015, on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Management of the City of Seal Beach is pleased to offer this narrative overview and analysis of the financial activities of the City for the fiscal year ended June 30, 2015. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal and the City's financial statements.

FINANCIAL HIGHLIGHTS

- Assets included in the City's combined governmental and business-type activities exceeded liabilities by \$129,158,636 for the fiscal year ended June 30, 2015, representing a decrease of 14.33% in net position from the prior fiscal year. Of this amount, an increase of \$3,176,104 was due to the increase in capital assets during the fiscal year. In addition, \$16,567,835 (unrestricted net position) of the total net position may be used to meet the government's ongoing obligations to citizens and creditors in accordance with the City's fund designation and fiscal policies. This amount includes City Council designations of fund balance.
- The City's change in net position was \$26,607,279 less than last fiscal year. The major reason for the decrease in the change in net position is attributable to the Net Position being restated to properly reflect the pension liabilities related to GASB 68 at June 30, 2015 in the amount of \$23,594,076. In addition, there's an increase in revenues for property tax of \$552,538, use of money and property of \$50,845, general government expenses increased by \$1,511,514, and public works expenses increased by \$960,371 for the fiscal year ended June 30, 2015.
- As of the close of the current fiscal year, the City's governmental funds reported combined ending fund balances of \$33,318,997, representing a decrease of 8% from the prior fiscal year. This resulted in an unassigned fund balance of \$21,186,109, or 64% of the total fund balance, after recording all nonspendable restricted and assigned fund balances.
- At the end of the current fiscal year, unassigned fund balance in the General Fund was \$21,711,517 or 66.4% of total general fund expenditures and transfers out.
- Revenues associated with the City's business-type activities were \$1,357,108 more than the \$5,699,023 in expenses recorded. During the fiscal year ended June 30, 2010, a water rate study was conducted and as a result of that study, water rates were reduced in fiscal year 2009-2010 but increased in fiscal year 2010-2011 and for the next three years. The final approved water rate increase occurred in the fiscal year ended June 30, 2014.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the City's basic financial statements. The City's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements – The government-wide financial statements are designed to provide readers with a view of the City's finances as a whole in a manner similar to a private-sector business.

The Statement of Net Position presents information on all of the City's assets and liabilities, with the difference between the two reported as net position. Increases or decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

The Statement of Activities presents information showing how the City's net position changed during the fiscal year. All changes in net position are reported when the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in the future fiscal periods.

Both of the government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenues (governmental activities) from functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the City include general government and administration, public safety, development services, public works, and recreation. The business-type activities of the City include water and sewer operations.

<u>Fund Financial Statements</u> – The fund financial statements provide detailed information about the most significant funds and other funds – not the City as a whole. Some funds are required to be established by State law and by bond covenants. However, management established many other funds to help control and manage money for particular purposes or to verify that all legal requirements for using certain taxes, grants, and other resources are being satisfied. The City's three types of funds are governmental, proprietary, and fiduciary funds.

Governmental funds – Most of the City's basic services are reported in governmental funds, which focus on how money flows in and out of those funds and the balances left at year-end that are available for spending. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the City's general government operations and the basic services it provides. Governmental fund information helps determine whether there are more or fewer financial resources that can be spent in the near future to finance the City's programs. The differences of results in the Governmental Fund financial statements to those in the Government-wide financial statements are explained in a reconciliation following each of the Governmental Fund financial statements.

Proprietary funds – Customer charges for various City services are generally reported in proprietary funds. Proprietary funds are reported in the same way that all activities are reported in the Statement of Net Position and the Statement of Activities. In fact, the City's enterprise funds are comprised of the business-type activities reported in the government-wide statements but provide more detail and additional information such as a statement of cash flows.

Fiduciary funds – The City utilizes Fiduciary funds to account for assets held by the City in a trustee capacity, or as an agent for other governmental entities, private organizations, or individuals. All of the City's fiduciary activities are reported in a separate statement of fiduciary net position and a statement of changes in fiduciary net position. We exclude these activities from the City's Government-wide Financial Statements because the City cannot use these assets to finance its operations.

Notes to the Financial Statements – The financial statements also include the Notes to the Financial Statements that provide important narrative details about the information contained in the financial statements. Information contained in the Notes to the Financial Statements is critical to a reader's full understanding of the Government-wide and Fund Financial Statements.

Supplementary Information – In addition to the required elements of the Basic Financial Statements, a Supplementary Information section is included which contains budgetary and combining schedules that provide additional details about the City's non-major Governmental Funds and Fiduciary Funds.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Our analysis focuses on the City's net position and changes in net position resulting from the City's activities.

Net Position – Net position may serve over time as a useful indicator of a government's financial position. The City's combined net position were \$129.2 million and \$150.8 million for the years ended June 30, 2015 and June 30, 2014, respectively, as shown in Table 1.

	Govern	Governmental		ss-Type	Total		
	Acti	vities	Activ	vities	Activities		
	2014	2015	2014	2015	2014	2015	
Current and other assets	\$ 40,742	\$ 38,407	\$ 16,837	\$ 16,346	\$ 57,579	\$ 54,753	
Capital assets	76,593	77,972	39,083	40,881	115,676	118,853	
Total assets	117,335	116,379	55,920	57,227	<u>173,255</u>	173,606	
Deferred Outflows of Resources		2,003	181	363	181	2,366	
Long-term liabilities outstanding	12,364	28,352	7,038	8,529	19,402	36,881	
Other liabilities	2,093	2,018	1,170	1,436	3,263	3,454	
Total liabilities	14,457	30,370	8,208	9,965	22,665	40,335	
Deferred Inflows of Resources		5,775		703		6,478	
Net position							
Net investment in capital asets	72,498	74,297	32,361	34,451	104,859	108,748	
Restricted	4,427	3,843	-	-	4,427	3,843	
Unrestricted	25,953	4,097	15,532	12,471	41,485	16,568	
Total net position	<u>\$ 102,878</u>	\$ 82,237	\$ 47,893	\$ 46,922	\$ 150,771	\$ 129,159	

Net Investment in capital assets represents assets such as land, buildings, infrastructure, and equipment less any related outstanding debt used to acquire those assets. Net Investment in capital assets represents \$108.7 million, or 84%, of the total \$ 129.2 million net position, an increase of 3.7% from the prior fiscal year. The City's capital assets do not represent a financial resource and consequently are not available for future spending.

Unrestricted position represents the second largest portion of the City's net position. The City is required by Council Policy to maintain a minimum of 20% to 25% of operating expenditures to maintain the City's credit worthiness and to meet cash flow requirements. As of June 30, 2015, unrestricted net position decreased by 60% to \$16.6 million from \$41.5 million in the prior fiscal year. Restricted net position represents resources that are legally restricted to specific uses. These restrictions are generally enforced by external agencies.

As of June 30, 2015, the City reported positive balances in all three categories of net position for both Governmental and Business-type Activities.

With the exception of contracting the City's fire services with the Orange County Fire Authority, the City is a full service city providing residents and visitors with the following functional services:

General Government is comprised of the City Council, City Clerk, City Manager, Human Resources, and Finance. These departments provide general governance, executive management, records management, risk management, finance, cash management, accounting, and information technology services. An outside firm appointed by the City Council provides legal services.

<u>Public Safety</u> is comprised of the Police and Lifeguard departments. The two departments provide general law enforcement, oversee animal control services, ocean and pool lifeguard services, and parking control.

<u>Public Works</u> provides engineering, construction and maintenance of public streets, highways, buildings, beaches, parks and related infrastructure, as well as traffic engineering, and street lighting.

<u>Development Services</u> is comprised of the Planning and Building departments that provide planning and zoning services, economic development services, and building plan check and code enforcement services.

<u>Community Services</u> provides leisure classes, monitors use of community facilities, sports programs, and aquatic services.

<u>Business Enterprise Operations</u> include water and sewer operations and are administered by Public Works.

The following table provides a summary of the City's operations for the years ended June 30, 2015 and 2014.

Analysis of the City's Operations – The City's Net Position decreased by \$21.6 million during Fiscal Year 2014-2015 or 14.33%, under prior year results.

Governmental Activities experienced a decrease of \$20.6 million in net position as of June 30, 2015 compared to an increase of \$2.3 million at June 30, 2014. The primary reason for the decrease in net position is attributable to the GASB 68 pension liability that is being restated to properly reflect liability at June 30, 2015 in the amount of \$21.3 million.

The cost of all governmental activities during the current fiscal year was \$33.4 million, slightly higher than last year. As shown on the statement of activities, those who directly benefited from the programs paid \$7.1 million of the cost, and \$2.8 million was financed by contributions and grants received from other governmental organizations. The remainder of the costs of operations, \$23.5 million was subsidized through general City taxes. The largest operating cost was comprised of Public Safety, representing 48% of total governmental expenditures compared to 52% of total governmental expenditures in fiscal year 2013-2014.

Business-type Activities' net position decreased \$.9 million primarily due the GASB 68 pension liability that is being restated to properly reflect the liability at June 30, 2015 in the amount of \$2.3 million.

FINANCIAL ANALYSIS OF THE GOVERNMENT'S FUNDS

Governmental funds – The objective of the City's governmental funds is to provide information on nearterm inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City's financing requirements. In particular, unreserved fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of June 30, 2015 the City's governmental funds reported combined ending fund balances of \$33.3 million. Approximately \$21.2 million, or 63.6%, of this total amount constitutes unassigned fund balance. The remainder of the fund balance is assigned to indicate that it is not available for new spending because it has already been committed to pay for encumbrances, loans, prepaid expenses, or advances to other funds.

The General Fund ended the fiscal year with a fund balance of \$30.0 million, representing a net decrease of \$2.1 million in fund balance compared to the \$2.6 million increase experienced during the prior fiscal year. The primary reason for the decrease in fund balance was due to a decrease in sales tax, franchise tax, other taxes, and other services. Additionally, general government expenditures increased by \$1.0 million and public works increased by \$.8 million.

Proprietary funds – The City's proprietary funds financial statements provide the same type of information found in the government-wide financial statements, but in more detail. Unrestricted net position totaled \$7.5 million and \$5.0 million for the Water and Sewer funds, respectively. The Water fund decreased by \$1.3 million in net position, mainly due to the restatement for the GASB 68 net pension liability. The increase of \$294 thousand in the Sewer fund net position resulted from planned increases in sewer operating fees and sewer capital fees charged to customers to rehabilitate and maintain the sewer infrastructure and satisfy future debt service commitments. Sewer operating fees represent 22% of customer water charges for both usage and capital costs.

General Fund Budgetary Highlights – The difference between the original and final amended budgeted revenues was an increase of \$9,000. The primary reason for the increase in the original and final budgeted numbers is mainly due to increase in donation from Run Seal Beach 5K/10K.

The difference between the original and final amended budget in General Fund expenditures was an increase of \$3.9 million. This difference is due to a variety of budget amendments approved by the City Council during the fiscal year including landscape maintenance services contract, law enforcement services, pier storage repair, and purchase order and CIP carryover from prior fiscal year.

General Fund revenues came in slightly less than projected in the final budget by approximately \$.6 million. Actual revenues came in lower than budgeted revenues and were almost entirely due to sales tax, franchise tax, and other taxes, however property tax came in higher than budgeted.

General Fund expenditures were \$6.1 million less than appropriations. This difference is due to transfers out and budgeted capital projects that were either not started or completed during the fiscal year. These appropriations were carried forward to the FY 2015-2016 fiscal year.

CAPITAL ASSETS

The City's capital assets for its governmental and business-type activities as of June 30, 2015, amounts to \$118.9 million compared to \$115.7 million (net of accumulated depreciation) for FY 2013-2014. This investment in capital assets includes land, building, equipment, improvements, infrastructure and construction in progress. Total capital assets for governmental activities for the current fiscal year increased 2% and the City's investment in capital assets for business-type activities for the current fiscal year increased 5%.

During FY 2014-2015, major capital projects formally completed include:

- Emergency Repairs to the West-End Pump Station to replace an aging a variable speed motor for \$84.825.
- Seal Beach Blvd and Lampson Ave. Landscape Improvement Project No. ST1410: This project renovated and replaced the landscaping an irrigation system for \$529,495.
- Ocean Avenue Alley Waterline and Sewer Replacements Project No WT1401: This project replaced the aging sewer and water lines for \$1,001,464.
- 2014 Annual Concrete Repair Program Project No. ST1404: This project replaced various city wide sidewalks, curb and gutters for \$83,512.
- Lampson Avenue Backup Power Project No. WT1102: This project was to install a new generator at the water well site for \$343,399.
- The City Yard Remodel Project No. BG1403: This project renovated the interior of the City Yard Building for \$ 574,908.

- Pier Structural Assessment Implementation Project No. BP1103: This project report analyzed the entire Pier Structure for \$60,813.
- 2015 Annual Slurry Seal Project No. ST1501: This project slurryed various city wide streets for \$60,735.
- 2015 Annual Concrete Repair Program Project No. ST1504: This project replaced various city wide sidewalks, curb and gutters for \$50,666.
- 2014 Annual Slurry Seal Project No. ST1401: This project slurryed various city wide streets for \$42.744.
- Main Street Lighting Project No. ST1203: This project installed new decorative street and pedestrian lights on Main Street for \$661,509.

Additional information on the City's capital assets can be found in note 6 in the Financial Section of this report.

DEBT ADMINISTRATION

As of June 30, 2015, the City had bonded debt, notes payable, compensated absences, claims payable, and capital leases totaling \$17.8 million compared to \$19.4 million at the end of FY 2013-2014. The City's governmental activities maintained \$11.1 million in bonds, capital leases, compensated absences, and claims payable versus \$12.4 million last year, representing a decrease of approximately \$1.3 million from the previous fiscal year. This decrease reflects interest and principal payments made during FY 2014-2015.

The City's business-type activities debt decreased \$.3 million from \$7.0 million to \$6.7 million. Debt in the business-type activities consists of Sewer Certificates of Participation Payable to provide funds for improvements to the City's sewer system, a State revolving loan for the sewer capital improvement project, and compensated absences.

Table 4
Outstanding Debt, At Year-End

Additional information on the City's long-term debt can be found in note 7 in the Financial Section of the report.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS

The City of Seal Beach economy and tax base continue to support the present package of core services for our residents, businesses, and visitors and protect all essential municipal services that contribute to the high quality of life within the City.

In FY 2014-2015 the tax revenue decreased overall as a direct result of a decline in the petroleum industry and a decline in the price of oil. In the General Fund, Property Tax revenues increased 6% and Sales Tax decreased 10% compared with the projected revenues at the beginning of the FY 2014-2015. The primary reason for the decline in sales tax was a significant decrease in sales related to the fuel and service stations industry.

For the upcoming fiscal year, property tax and sales tax are projected to increase slightly primarily due to the continued improvement in real estate values and retail sales throughout the City.

The Southern California region, as well as the entire country, continues to show signs of improved economic activity. According to local economic updates, Orange County's unemployment rate will continue to decline and the housing market will continue to show improvement. Consumer spending is expected to increase slightly as well.

The City prepared an annual budget for FY 2015-2016. The one-year budget represents a General Fund surplus of operating revenues over operating expenditures (excluding capital projects) in each fiscal year. Expenditures of the City were budgeted at the current level of service with capital improvement projects to be supported primarily by the City's General Fund reserves. The revenue projections for the FY 2015–2016 budget year were very conservative due to the slow improvement in the economy. The City will continue to monitor revenue streams throughout the coming years and will adjust spending levels as deemed necessary.

The most significant issues facing the City are the aged condition of the City's infrastructure. The City has completed and adopted numerous infrastructure planning documents e.g. (Water Master Plan, Sewer Master Plan, Master Plan of Drainage, Facilities Master Plan, and Pavement Management Plan). These plans identify well over \$150 million in needed improvements throughout the City. The City annually adopts a 5-year Capital Improvement Program (CIP) that strategically plans construction of these needed improvements. The FY 2015-16 CIP recommends \$29.2 million in improvements over the next 5 years. The 5 Year Capital Improvement Program identifies needs in the following areas: Beach and Pier (\$1.8m), Buildings and Facilities (\$7.4m), Sewer System (\$1.8m), Storm Drain System (\$380k), Streets and Transportation (\$5.1m) and Water System (\$11.9m). Based upon the list of known projects there is over \$40 million of capital improvements needed in the near future.

REQUEST FOR INFORMATION

This financial report is designed to provide the City's citizens, taxpayers, customers, investors, and creditors with a general overview of the City's finances and to demonstrate the City's accountability for the funds it receives. If you have questions about this report or need additional financial information, contact the City's Finance Department at 211 8th Street, Seal Beach, CA 90740-6379 or call (562) 431-2527.

CITY OF SEAL BEACH

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES YEAR ENDED JUNE 30, 2015

Net change in fund balances - total governmental funds		\$ (3,597,773)
Amounts reported for governmental activities in the statement of activities are different because:		
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the costs of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period. Capital outlay Depreciation Gain/(loss) on disposal of capital assets	\$ 3,360,085 (2,695,844) (13,778)	650,463
Repayment of bond principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position. Principal repayments.		1,337,573
Accrued interest for long-term liabilities. This is the net change in accrued interest for the current period.		(3,092)
Pension obligation expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.		238,007
Claims and judgment changes reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.		14,223
Compensated absences expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.		(83,503)
Governmental funds report all contributions in relation to the annual required contribution (ARC) for OPEB as expenditures, however in the statement of activities only the ARC is an expense.		356,637
Revenues reported as unavailable revenue in the governmental funds and recognized in the statement of activities. These are included in the intergovernmental revenues in the governmental fund activity.		198,146
Internal service funds are used by management to charge the costs of certain activities, such as equipment management and self-insurance, to individual funds. The net revenues (expenses) of the internal service funds is reported with governmental activities.		124,822
Extraordinary gain on a capital asset required to be transferred to the City from the Successor Agency of the Redevelopment Agency.		694,585
Change in net position of governmental activities		\$ (69,912)

I. SIGNIFICANT ACCOUNTING POLICIES

Note 1: Organization and Summary of Significant Accounting Policies

The basic financial statements of the City of Seal Beach, California (City) have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to Government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the City's accounting policies are described in the following pages:

a. Description of the Reporting Entity

The City of Seal Beach (City) was incorporated on October 27, 1915, under the laws of the State of California and enjoys all the rights and privileges applicable to a charter city. It is governed by an elected five-member council. As required by accounting principles generally accepted in the United States of America, these financial statements present the City of Seal Beach (the primary government) and its component units. The component units discussed below are included in the reporting entity because of their operational or financial relationships with the City of Seal Beach.

Blended Component Units:

The Seal Beach Public Financing Authority (Authority) was formed May 8, 2000, pursuant to Articles 1 through 4 of Chapter 5, Division 7, Title 1 of the California Government Code, to create a joint exercise of powers authority between the City of Seal Beach and the former Seal Beach Redevelopment Agency. The City Council of the City of Seal Beach is the governing board. The Authority was formed to undertake the financing of public capital improvements.

The City has accounted for the Authority as "blended" component unit. Despite being legally separate, the Authority is so intertwined with the City that it is, in substance, part of the City's operations. The Authority has not had any activity for the year ended June 30, 2015.

The Seal Beach Cable Communications Foundation (Foundation) was organized under the laws of the State of California on August 27, 1984, to foster and promote civic advancement through activities related to cable communications, community promotion, and other public services deemed appropriate by the foundation. The Foundation is governed by a board of directors consisting of seven members appointed by the City Council of the City of Seal Beach.

The City has accounted for the Foundation as "blended" component unit. Despite being legally separate, the Foundation is so intertwined with the City that it is, in substance, part of the City's operations. The Foundation is included in the City's budget.

b. Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the primary government and its component units. All fiduciary activities are reported only in the fund financial statements. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include: 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services or privileges provided by a given function or segment, and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items are properly not included among program revenues are reported instead as general revenues.

While separate government-wide and fund financial statements are presented, they are interrelated. The governmental activities column incorporates data from governmental funds and internal service funds, while business-type activities incorporate data from the government's enterprise funds. Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements.

The fund financial statements provide information about the government's funds, including its fiduciary funds and blended component units. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

c. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. The Agency funds, however, are unlike all other types of funds, reporting only assets and liabilities. Therefore, the Agency funds cannot be said to have a measurement focus. They do, however, use the accrual basis of accounting to recognize receivables and payables.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, franchise fees, licenses and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Only the portion of special assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenue

Note 1: Organization and Summary of Significant Accounting Policies (Continued)

of the current period. All other revenue items are considered to be measurable and available only when cash is received by the government.

The private-purpose trust funds are reported using the economic resources measurement focus and the accrual basis of accounting.

d. Fund Classification

The City reports the following major governmental funds:

<u>General Fund</u> - This fund is used to account for most of the day-to-day operations of the City, which are financed from property taxes, utility user taxes, sales tax and other general revenues. Activities financed by the General Fund include police services, fire services, community services, general administration, engineering, and planning.

<u>Citywide Grants Fund</u> – This fund accounts for various Federal and State grants that are restricted to expenditures for specific projects or purposes.

<u>Capital Projects and Equipment Fund</u> – This fund accounts for financial transactions of general capital improvements.

The City reports the following major proprietary funds:

<u>Water Utility Enterprise Fund</u> – This fund accounts for the operation and maintenance of the City's water distribution system.

<u>Sewer Utility Enterprise Fund</u> – This fund accounts for the financial transactions of the City's waste water collection system.

Additionally, the City reports the following fund types:

<u>Debt Service Funds</u> – These funds account for the servicing of the long-term debt not being financed by proprietary or nonexpendable trust funds.

<u>Internal Service Fund</u> – This fund accounts for vehicle replacements. Departments of the City are charged for services provided or benefits received from these funds. For the current year, departments were not charged for services.

<u>Agency Funds</u> – These funds are used to account for money and property held by the City as trustee or custodian. They are also used to account for various assessment districts for which the City acts as an agent for debt service activity.

<u>Private Purpose Trust Fund</u> – This fund accounts for the assets and liabilities of the former redevelopment agency and is allocated revenue to pay estimated installment payments of enforceable obligations until obligations of the former redevelopment agency are paid in full and assets have been liquidated.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are charges between the government's proprietary funds function and various other functions of the government. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Amounts reported as program revenues include: 1) charges to customers or applicants for goods, services or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the enterprise funds are charges to customers for sales and services. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the government's policy to use restricted resources first, then unrestricted resources as they are needed.

e. Assets, Liabilities, Deferred Outflows, Deferred Inflows and Net Position or Equity

1. Deposits and Investments

The City's cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition. For financial statement presentation purposes, cash and cash equivalents are shown as both restricted and unrestricted cash and investments in the proprietary funds.

Investments for the City, as well as for its component units, are reported at fair value. The City's policy is generally to hold investments until maturity or until market values equal or exceed cost. The State Treasurer's Investment Pool operates in accordance with appropriate state laws and regulations. The reported value of the pool is the same as the fair value of the pool shares.

2. Receivables and Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the noncurrent portion of interfund loans). All other outstanding balances between Funds

are reported as "due to/from other funds". Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances".

All trade and property tax receivables are shown net of an allowance for uncollectible amounts. Property tax revenue is recognized on the modified accrual basis, that is, in the fiscal year for which the taxes have been levied providing they become available. Available means then due, or past due and receivable within the current period and collected within the current period or expected to be collected soon enough thereafter to be used to pay liabilities of the current period.

3. Functional Classifications

Expenditures of the Governmental Funds are classified by function. Functional classifications are defined as follows:

General government includes legislative activities, which have a primary objective of providing legal and policy guidelines for the City. Also included in this classification are those activities which provide management or support services across more than one functional area.

Public safety includes those activities which involve the protection of people and property.

Community development includes those activities which involve the enhancing of the general quality of life.

Community services include those activities which involve the community cultural and leisure activities.

Public works includes those activities which involve the maintenance and improvement of City streets and roads, and park department development and maintenance.

4. Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements. These payments are recorded as expenditures when consumed rather than when purchased. The fund balances in the governmental fund types have been classified as nonspendable for amounts equal to the prepaid items in the fund-level statements, since these amounts are not available for appropriation.

5. Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the City as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or

constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

Capital assets are public domain (infrastructure) consisting of certain improvements including roads, bridges, curbs, gutters, streets and sidewalks, medians, sewer and storm drains.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed.

Property, plant, and equipment of the primary government, as well as the component units, are depreciated using the straight-line method over the following estimated useful lives:

Assets	Years
Building and Improvements	20-99
Machinery and Equipment	5-50
Vehicles	4-10
Infrastructure	20-60

6. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/ expenditure) until then. The government only has two items that qualify for reporting in this category. One is the deferred charge on refunding reported in the statement of fiduciary net position. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. The second are deferred outflows relating to the net pension obligation reported in the government-wide statement of net position. These outflows are the results of contributions made after the measurement period, which are expensed in the following year, and of adjustments due to difference in proportions and the difference between actual contributions made and the proportionate share of the risk pool's total contributions. These amounts are deferred and amortized over the expected average remaining service life time.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and thus will not be recognized as an inflow of resources (revenue) until that time. The government has one item, which arises only under a modified accrual basis of accounting that qualifies for reporting in this category. Accordingly, the item, unavailable revenue, is reported only in the governmental funds balance sheet. The governmental funds report unavailable revenues from two sources: taxes and grant revenues. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available. In addition, the government has one item that qualifies for reporting in this category

which are deferred inflows relating to the net pension obligation reported in the government-wide statement of net position. These inflows are the result of the net difference between projected and actual earnings on pension plan investments. This amount is deferred and amortized straight-line over a five-year period.

7. Net Position Flow Assumption

Sometimes the City will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted – net position and unrestricted – net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the City's policy to consider restricted – net position to have been depleted before unrestricted – net position is applied.

8. Fund Balance Flow Assumptions

Sometimes the City will fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance). In order to calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements a flow assumption must be made about the order in which the resources are considered to be applied. It is the City's policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

9. Compensated Absences

In accordance with GASB Statement No. 16, a liability is recorded for compensated absences (unpaid vacation, sick leave and compensatory time) since the employees' entitlement to these balances are attributable to services already rendered and it is probable that virtually all of these balances will be liquidated by either paid time off or payments upon termination or retirement.

Under GASB Statement No. 16 a liability is recorded for unused sick leave balances only to the extent that it is probable that the unused balances will result in termination payments. This is estimated according to the Memorandum of Understanding for each employee bargaining group. Other amounts of unused sick leave are excluded from the liability since their payment is contingent solely upon the occurrence of a future event (illness) which is outside the control of the City and the employee.

10. Pension Plans

For purposes of measuring the net pension liability, deferred outflows and inflows of resources related to pensions, and pension expense, information about the fiduciary net position and additions to/deductions from the fiduciary net position have been determined on the same basis as they are reported by the CalPERS Financial Office. For this purpose, benefit payments (including refunds of employee contributions) are recognized when currently due and payable in accordance with the benefit terms. Investments are reported at fair value. CalPERS audited financial statements are publicly available reports that can be obtained at CalPERS' website under Forms and Publications.

11. Long Term Obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

12. Fund Equity

In the fund financial statements, government funds report the following fund balance classifications:

Nonspendable includes amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact.

<u>Restricted</u> includes amounts that are constrained on the use of resources by either (a) external creditors, grantors, contributors, or laws of regulations of other governments or (b) by law through constitutional provisions or enabling legislation.

<u>Assigned</u> includes amounts that are constrained by the government's intent to be used for specific purposes, but are neither restricted nor committed. The City Manager, and/or the Director of Finance are authorized to assign amounts to a specific purpose, which was established by the governing body in a minute action.

<u>Unassigned</u> includes the residual amounts that have not been restricted, committed, or assigned to specific purposes.

An individual governmental fund could include nonspendable resources and amounts that are restricted or unrestricted (assigned or unassigned) or any combination of those classifications. Restricted amounts are to be considered spent when expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available assigned, then unassigned amounts are considered to have been spent when an expenditure is incurred for purposes for which amounts in any of those unrestricted fund balance classifications can be used.

13. Change in Accounting Principles

The Entity implemented GASB Statement 68, Accounting and Financial Reporting for Pensions – An Amendment of GASB Statement No. 27. Accordingly, the cumulative effect of the accounting change as of the beginning of the year is reported in the government-wide statement of activities.

II. STEWARDSHIP

Note 2: Stewardship, Compliance and Accountability

a. Property Taxes

Under California law, property taxes are assessed and collected by the counties up to 1% of assessed value, plus other increases approved by the voters. The property taxes go into a pool, and are then allocated to the cities based on complex formulas.

Accordingly, the City recognizes as revenue only those taxes which are received within 60 days after year end.

The property tax calendar is as follows:

Lien Date: January 1 Lew Date: July 1

Due Date: First Installment- November 1

Second Installment- February 1

Delinquent Date: First Installment- December 11

Second Installment- April 11

b. Use of Estimates

The preparation of basic financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenditures during the reporting period. Actual results could differ from those estimates.

III. DETAILED NOTES ON ALL FUNDS

Note 3: Cash and Investments

Cash and investments as of June 30, 2015, are classified in the accompanying financial statements as follows:

Statement of Net Position:	
Cash and investments	\$ 46,596,356
Restricted:	
Cash and investments with fiscal agent	733,267
Statement of Fiduciary Net Assets:	
Cash and investments	836,650
Restricted:	

Cash and investments with fiscal agent 2,227,085

Total cash and investments \$ 50,393,358

Cash and investments as of June 30, 2015, consist of the following:

Cash on hand	\$ 7,214
Deposits with financial institutions	1,952,218
Investments	48,433,926
Total cash and investments	\$ 50,393,358

Investments Authorized by California Government Code and the City's Investment Policy

The following table identifies the investment types that are authorized for the City by the California Government Code Section 53601 or the City's investment policy, where more restrictive. The table also identifies certain provisions of the California Government Code (or the City's investment policy if more restrictive) that address interest rate risk, credit risk, and concentration of credit risk. This table does not address investments of debt proceeds held by bond trustees that are governed by the provisions of debt agreements of the City, rather than the general provisions of the California Government Code or the City's investment policy.

The City Treasurer may waive the collateral requirement for deposits that are fully insured up to \$250,000 by the FDIC.

Note 3: Cash and Investments (Continued)

Authorized Investment Type	Maximum	Maximum Percentage of Portfolio*	Maximum Investment in
Authorized Investment Type	Maturity	Portiono	One Issuer*

Investment contracts	30 years	None	None
Local Agency Investment			
Fund (LAIF)	None	None	None

^{*}Based on state law requirements or investment policy requirements whichever is more restrictive.

Disclosures Relating to Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value is to changes in market interest rates. One of the ways that the City manages its exposure to interest rate risk is by purchasing a combination of shorter term and longer term investments and by timing cash flows from maturities so that a portion of the portfolio is maturing or coming close to maturity evenly over time as necessary to provide the cash flow and liquidity needed for operations.

Note 3: Cash and Investments (Continued)

Information about the sensitivity of the fair values of the City's investments (including investments held by bond trustees) to market interest rate fluctuations is provided by the following table that shows the distribution of the City's investments by maturity.

			Remai					
Investment Type	Total	(6 months or less	6 1	months to 1 year	1 year to 3 years	3	years to 5 years
U.S. Agency Securities	\$ 6,281,848	\$	-	\$	-	\$ 5,099,916	\$	1,181,932

Credit Risk

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. Presented below is the minimum rating required by (where applicable) the California Government code or the City's investment policy, or debt agreements, and the actual rating as of the year-end for each investment type:

			Remaining as of Year End					
Investment Type	Minimum Legal Rating	Total	AA- to AA+	A to A+	A-	Unrated		
U.S. Agency Securities	N/A	\$ 6,281,848	\$ 6,281,848	\$ -	\$ -	\$ -		
U.S. Treasury Securities	N/A	6,063,675	6,063,675	-	_	-		
Medium-term notes	Α	7,179,565	4,324,139	2,855,426	_	-		
Obligations of the State of California								
or any local agency	N/A	1,281,622	728,742	412,239	_	140,641		
Certificates of Deposit	N/A	4,871,405	_	-	-	4,871,405

of Any Other 49 States	N/A	317,756	317,756	-	-	-		
Local Agency Investment Fund (LAIF)	N/A	19,477,703	_	-	_	19,477,703		
Held by Fiscal Agent:								
Money Market Mutual Funds	N/A	2,960,352	_	-	-	2,960,352		
Total		\$ 48,433,926	\$ 17,716,160	\$ 3,267,665	\$ -	\$ 27,450,101		

Custodial Credit Risk

Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. The custodial credit risk for investments is the risk that, in the event of the failure of the counterparty (e.g., broker-dealer) to a transaction, a government will not be able to recover the value of its investment or collateral securities that are in the possession of another party.

Note 3: Cash and Investments (Continued)

The California Government Code and the City's investment policy do not contain legal or policy requirements that would limit the exposure to custodial credit risk for deposits or investments, other than the following provision for deposits: The California Government Code requires that a financial institution secure deposits made by state or local governmental units by pledging securities in an undivided collateral pool held by a depository regulated under state law (unless so waived by the governmental unit). The market value of the pledged securities in the collateral pool must equal at least 110% of the total amount deposited by the City. California law also allows financial institutions to secure City deposits by pledging first trust deed mortgage notes having a value of 150% of the secured City deposits. Investments held by a bond trustee are selected under the terms of the applicable trust agreement. The trustee acquires the investment and holds the investment on behalf of the reporting government.

Concentration of Credit Risk

The investment policy of the City contains no limitations on the amount that can be invested in any one issuer beyond what is stipulated by the California Government Code. The City did not have any investments in any one issuer (other than Certificates of Deposit, mutual funds, and external investment pools) that represents 5% or more of total City investments.

Investment in State Investment Pool

The City is a voluntary participant in the Local Agency Investment Fund (LAIF) that is regulated by California Government Code Section 16429 under the oversight of the Treasurer of the State of California. The fair value of the City's investment in this pool is reported in the accompanying financial statements at amounts based upon the City's pro-rata share of the fair value provided by LAIF for the entire LAIF portfolio (in relation to the amortized cost of that portfolio). The balance available for withdrawal is based on the accounting records maintained by LAIF, which are recorded on an amortized cost basis.

Note 4: Interfund Receivable, Payable and Transfers

The composition of interfund balances as of June 30, 2015, was as follows:

Due From and To Other Funds

	Due to Other Funds:							
	City Wide		Nonmajor					
Funds	Grants		Go۱	vernmental	Total			
Due From Other Funds: General fund	\$ 886,057		\$	136,045	\$	1,022,102		

These interfund balances are a result of short-term borrowings to cover deficit cash balances in the Citywide Grants, Supplemental Law Enforcement and Police Grants Fund at June 30, 2015.

Note 4: Interfund Receivable, Payable and Transfers (Continued)

Interfund Transfers

	Transfers Out:											
			Capital		Internal	Nonmajor						
	General	City Wide	Projects and	d Water	Sewer	Service	Governmental					
Transfers in:	Fund	Grant	Equipment	Utility	Utility	Fund	Funds	Total				
Fund		1	1	,	,	•						
General Fund	\$ -	\$ -	\$ 3,142	\$ 324,500	\$ 54,000	\$ 24,967	\$ 350,000	\$ 756,609				
Capital Projects and												
Equipment Fund	2,094,253	1,033,047	-		-	-	1,381,671	4,508,971				
Nonmajor Governmental Funds	1,747,268	-	-		-	-	-	1,747,268				
Internal Service Fund	310,000	-	-		-	-	-	310,000				
Total	\$ 4,151,521	\$ 1,033,047	\$ 3,142	\$ 324,500	\$ 54,000	\$ 24,967	\$ 1,731,671	\$ 7,322,848				

Transfers totaling \$756,609 from the Water Utility Fund, Sewer Utility Fund and various nonmajor governmental funds were made to the General Fund primarily to reimburse the General Fund for certain administrative costs.

The General Fund, Citywide Grants Fund and Nonmajor Governmental Funds transferred \$4,508,971 to the Capital Projects and Equipment Fund for infrastructure projects such as street improvements, public work facilities, and storm drain improvements.

The General Fund transferred \$1,747,268 to various nonmajor governmental funds to pay for debt service and to cover other budgeted amounts.

The General Fund transferred \$310,000 to the Internal Service Fund to reimburse the fund for vehicle and equipment purchases.

Note 5: Advance to Successor Agency

In 2012, the Sewer Fund advanced \$1,200,000 to the former redevelopment agency. This was subsequently denied by the Department of Finance (DOF). The City appealed the DOF decision and, in 2014, this advance was approved. Interest on the advance is consistent Local Agency Investment Fund (LAIF) interest rate at the time the Oversight Board made the finding that the advance was for legitimate redevelopment purposes, which is at 0.00367%. The balance of the advance at June 30, 2015, was \$952,344.

CITY OF SEAL BEACH

NOTES TO FINANCIAL STATEMENTS (CONTINUED) JUNE 30, 2015

Note 6: Capital Assets

Capital asset activity for the year ended June 30, 2015, was as follows:

		Beginning Balance	nsfer From essor Agency	Transfers of CIP	Additions		Deletions		Ending Balance
Governmental Activities:	_

2026		83,452		1,419						
Total	\$	1,488,358	\$	293,929						

Compensated Absences Payable

The City's policy relating to compensated absences is described in Note 1 of the Notes to Financial Statements. This liability will be paid in future years from future resources. The outstanding liability for compensated absences earned was \$1,206,107 governmental and \$118,335 business-type totaling \$1,324,442. The general fund typically has been used to liquidate the liability for compensated absences.

Note 7: Long-Term Debt (Continued)

Claims Payable

The City is exposed to various risks of loss to its operation, including losses associated with errors and omissions, injuries to employees and members of the public. The claims and judgments reported in the Government-wide financial statements is based on the requirements of Governmental Accounting Standards Board No. 10, which requires that a liability for claims be reported if information prior to the issuance of the financial statements indicates that it is probable that liability has been incurred at the date of the financial statements and the amount of loss can be reasonably estimated. As of June 30, 2015, claims payable including estimated claims for incurred but not reported claims, amounted to \$314,825.

			Cur	rent Year

Note 8: Debt Issued Without Government Commitment

Surfside Colony Reassessment District No. 2000-1

The Surfside Colony Reassessment District No. 2000-1 was formed to finance improvements within the Surfside Colony and to refund the outstanding unmatured portion of the Assessment District 94-1 (Surfside Colony) limited obligation improvement bonds. The debt service payments on the bonds will be included on property tax bills within the reassessment district and will be collected by the City and then forwarded to the paying agent. A Reserve Fund was established in which the City may make withdrawals enough to cover any delinquent payments on the reassessments. The City has no liability for the bonds beyond the amount held in the Reserve Fund. The bonds are not secured by the general taxing power of the City, county, state, or any political subdivision thereof pledged its full faith and credit for the repayment thereof. Since the City has no liability for these bonds, the reserve fund and debt service monies are stored in the Agency Fund and the debt is not included in the financial statements. The outstanding balance at June 30, 2015, was \$125,000.

Heron Pointe Community Facilities District No. 2002-01

The Heron Pointe Community Facilities District No. 2002-01 was formed to finance public facilities improvements within Heron Pointe. The debt service payments on the bonds will be included on property tax bills within community facilities district and will be collected by the City and then forwarded to the paying agent. A Reserve Fund was established in which the City may make withdrawals enough to cover any delinquent payments on the reassessments. The City has no liability for the bonds beyond the amount held in the Reserve Fund. The bonds are not secured by the general taxing power of the City, county, state, or any political subdivision of the state nor has the City, county, state, or any political subdivision thereof pledged its full faith and credit for the repayment thereof. Since the City has no liability for these bonds, the reserve fund and debt service monies are stored in the Agency Fund and the debt is not included in the financial statements. The outstanding balance at June 30, 2015, was \$3,425,000.

Note 8: Debt Issued Without Government Commitment (Continued)

Pacific Gateway Business Center Community Facilities District No 2005-01

The Pacific Gateway Business Center Community Facilities District No. 2005-01 (District) was formed to finance public facilities within the District. The debt service payments on the bonds will be included on property tax bills within the community facilities district and will be collected by the City and then forwarded to the paying agent. A Reserve Fund was established in which the City may make withdrawals enough to cover any delinquent payments on the reassessments. The City has no liability for the bonds beyond the amount held in the Reserve Fund. The bonds are not secured by the general taxing power of the City, county, state, or any political subdivision of the state nor has the City, county, state, or any political subdivision thereof pledged its full faith and credit for the repayment thereof. Since the City has no liability for these bonds, the reserve fund and debt service monies are stored in the Agency Fund and the debt is not included in the financial statements. The outstanding balance at June 30, 2015, was \$8,430,000.

Note 9: Retirement Plans

Plan Descriptions

All qualified permanent and probationary employees are eligible to participate in the City's separate Safety (police) and Miscellaneous (all other) Employee Pension Plans, cost-sharing multiple employer defined benefit pension plans administered by the California Public Employees' Retirement System (CalPERS). Benefit provisions under the Plans are established by State statute and City resolution. CalPERS issues publicly available reports that include a full description of the pension plans regarding benefit provisions, assumptions and membership information that can be found on the CalPERS website.

Benefits Provided

CalPERS provides service retirement and disability benefits, annual cost of living adjustments and death benefits to plan members, who must be public employees and beneficiaries. Benefits are based on years of credited service, equal to one year of full time employment. Members with five years of total service are eligible to retire at age 50 with statutorily reduced benefits. All members are eligible for non-duty disability benefits after 10 years of service. The death benefit is one of the following: The Basic Death Benefit, the 1957 Survivor Benefit, or the Optional Settlement 2W Death Benefit. The cost of living adjustments for each plan are applied as specified by the Public Employees' Retirement Law.

Contribution Description

Section 20814(c) of the California Public Employees' Retirement Law (PERL) requires that the employer contribution rates for all public employers be determined on an annual basis by the actuary and shall be effective on the July 1 following notice of a change in the rate. The total plan contributions are determined through the CalPERS' annual actuarial valuation process. The actuarially determined rate is based on the estimated amount necessary to pay the Plan's allocated share of the risk pool's costs of benefits earned by employees during the year, and any unfunded accrued liability. The employer is required to contribute the difference between the actuarially determined rate and the contribution rate of employees.

For the year ended June 30, 2015, the contributions recognized as a reduction to the total net pension liability for all plans was \$1,996,438.

Pension Liabilities, Pension Expense and Deferred Outflows and Deferred Inflows of Resources Related to Pensions

As of June 30, 2015, the City reported net pension liabilities for its proportionate shares of the net pension liability of each Plan as follows:

Proportionate Share of Net	Pen	sion Liability
Miscellaneous	\$	7,245,132
Miscellaneous PEPRA		181
Safety		11,823,793
Total Net Pension Liability:	\$	19,069,106

The City's net pension liability for each Plan is measured as the proportionate share of the net pension liability. The net pension liability of each of the Plans is measured as of June 30, 2014, and the total pension liability for each Plan used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2013, rolled forward to June 30, 2014, using standard update procedures. The City's proportion of the net pension

Note 9: Retirement Plans (Continued)

liability was based on a projection of the City's long-term share of contributions to the pension plans relative to the projected contributions of all participating employers, actuarially determined. The City's proportionate share of the net pension liability for each Plan as of June 30, 2013 and 2014, was as follows:

		PEPRA		
	Miscellaneous	Miscellaneous	Safety	Total Plans
Proportion - June 30, 2013	0.32863%	0.00001%	0.35912%	0.68776%
Proportion - June 30, 2014	0.29315%	0.00001%	0.31522%	0.60838%
Change - Increase (Decrease)	-0.03548%	0.00000%	-0.04390%	-0.07938%

For the year ended June 30, 2015, the City recognized a total pension expense of \$1,712,522 for all plans in total. At June 30, 2015, the City reported deferred outflows and deferred inflows of resources related to pensions as follows:

	Deferred Outflows of Resources		Deferred Inflows of Resources	
Net Difference between Projected and Actual Earnings on Pension Plan Investments	\$	-	\$	6,031,919
Adjustment due to Difference in Proportions		240,120		6,142
Adjustment due to Difference in Proportionate share of contributions		-		439,552
District contribution subsequent to the measurement date		1,956,992		<u>-</u>
Total	\$	2,197,112	\$	6,477,613

\$1,956,992 reported as deferred outflows of resources related to contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2016. Other amounts reported as deferred outflows or deferred inflows of resources related to pensions will be recognized as pension expense as follows:

		Deferred
Year ended	Outflo	ows/(Inflows) of
June 30:	F	Resources
2016	\$	(1,540,086)
2017		(1,540,085)
2018		(1,556,802)
2019		1,600,520

Actuarial Methods and Assumptions Used to Determine Total Pension Liability

For the measurement period ended June 30, 2014 (the measurement date), the total pension liability was determined by rolling forward the June 30, 2013 total pension liability. The June 30, 2013 and the June 30, 2014, total pension liabilities were based on the following actuarial methods and assumptions:

Note 9: Retirement Plans (Continued)

Actuarial Cost Method Entry Age Normal Cost Method

Actuarial Assumptions

Discount Rate 7.50% Inflation 2.75%

Salary Increases Varies by Entry Age and Service

Investment Rate of Return 7.50% (1)

Mortality Rate Table (2) Derived using CalPERS' Membership Data

for all Funds

Post Retirement Benefit Contract COLA up to 2.75% until

Increase Purchasing Power Protection Allowance
Floor on Purchasing Power applies, 2.75%

thereafter

(1) Net of Pension Plan Investment and Administrative Expenses; includes Inflation

(2) The mortality table used was developed based on CalPERS' specific data. The table includes 20 years of mortality improvements using Society of Actuaries Scale BB. For more details on this table, please refer to the 2014 experience study report on the CalPERS website.

All other actuarial assumptions used in the June 30, 2013, valuation were based on the results of an actuarial experience study for the period from 1997 to 2011, including updates to salary increase, mortality and retirement rates. The Experience Study report can be obtained at CalPERS' website under Forms and Publications.

Discount Rate

The discount rate used to measure the total pension liability was 7.50 percent. To determine whether the municipal bond rate should be used in the calculation of a discount rate for each plan, CalPERS stress tested plans that would most likely result in a discount rate that would be different from the actuarially assumed discount rate. Based on the testing, none of the tested plans run out of assets. Therefore, the current 7.50 percent discount rate is adequate and the use of the municipal bond rate calculation is not necessary. The long term expected discount rate of 7.50 percent is applied to all plans in the Public Employees Retirement Fund. The stress test results are presented in a detailed report called "GASB Crossover Testing Report" that can be obtained at CalPERS' website under the GASB 68 section.

According to Paragraph 30 of Statement 68, the long-term discount rate should be determined without reduction for pension plan administrative expense. The 7.50 percent investment return assumption used in this accounting valuation is net of administrative expenses. Administrative expenses are assumed to be 15 basis points. An investment return excluding administrative expenses would have been 7.65 percent. Using this lower discount rate has resulted in a slightly higher total pension liability and net pension liability. CalPERS determined this difference was deemed immaterial to the Public Agency Cost-Sharing Multiple-Employer Defined Benefit Pension Plan. More information can be found on the CalPERS website.

CalPERS is scheduled to review all actuarial assumptions as part of its regular Asset Liability Management review cycle that is scheduled to be completed in February 2018. Any changes to the discount rate will require Board action and proper stakeholder outreach. For these reasons, CalPERS expects to continue using a discount rate net of administrative expenses for GASB 67 and 68 calculations through at least the 2017-18 fiscal year. CalPERS will continue to check the materiality of the difference in calculation until such time as we have changed our methodology.

Note 9: Retirement Plans (Continued)

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class.

In determining the long-term expected rate of return, CalPERS took into account both short-term and long-term market return expectations as well as the expected pension fund cash flows. Such cash flows were developed assuming that both members and employers will make their required contributions on time and as scheduled in all future years. Using historical returns of all the funds' asset classes, expected compound (geometric) returns were calculated over the short-term (first 10 years) and the long-term (11-60 years) using a building-block approach. Using the expected nominal returns for both short-term and long-term, the present value of benefits was calculated for each fund. The expected rate of return was set by calculating the single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both short-term and long-term returns. The expected rate of return was then set equivalent to the single equivalent rate calculated above and rounded down to the nearest one quarter of one percent.

The table below reflects long-term expected real rate of return by asset class. The rate of return was calculated using the capital market assumptions applied to determine the discount rate and asset allocation. These geometric rates of return are net of administrative expenses.

	New Strategic	Real Return	Real Return
Asset Class	Allocation	Years 1 - 10 (1)	Years 11+ (2)
Global Equity	47.0%	5.25%	5.71%
Global Fixed Income	19.0	0.99	2.43
Inflation Sensitive	6.0	0.45	3.36
Private Equity	12.0	6.83	6.95
Real Estate	11.0	4.50	5.13
Infrastructure and Forestland	3.0	4.50	5.09
Liquidity	2.0	(0.55)	(1.05)

- (1) An expected inflation of 2.5% used for this period
- (2) An expected inflation of 3.0% used for this period

Sensitivity of the Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the City's proportionate share of the net pension liability for each Plan, calculated using the discount rate for each Plan, as well as what the City's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1% point lower or 1% point higher than the current rate:

Plans Net Pension	Disc	ount Rate - 1%	Cui	rrent Discount	Dis	count Rate +1%
Liability/(Asset)		6.50%		7.50%		8.50%
Miscellaneous	\$	12,961,047	\$	7,245,132	\$	2,501,465
Miscellaneous PEPRA		322		181		64
Safety		20,347,217		11,823,793		4,800,860
TOTAL:	\$	33,308,586	\$	19,069,106	\$	7,302,389

Note 9: Retirement Plans (Continued)

Pension Plan Fiduciary Net Position

Detailed information about each pension plan's fiduciary net position is available in the separately issued CalPERS financial reports. See CalPERS website for additional information.

Note 10: Joint Ventures

Orange County Fire Authority

The City of Seal Beach entered into a joint powers agreement with seventeen other cities and the County of Orange in January 1995, and subsequently amended on September 23, 1999, to create the Orange County Fire Authority (the Authority). Since 1995, other cities within the County have also joined the Authority to bring the total members in the Authority to twenty-two. The purpose of the Authority is to provide for mutual fire protection, prevention and suppression services and related and incidental services including, but not limited to, emergency medical and transport services, hazardous materials regulation as well as providing facilities and personnel for such services. The effective date of formation was March 1, 1995. The Authority's governing board consists of one representative from each City and two from the County. The operations of the Authority are funded with structural fire fees collected by the County through either the property tax roll or with cash contributions based on the Authority's annual budget. The County pays all structural fire fees it collects to the Authority. In 2014-2015 the City of Seal Beach paid \$4,609,538 to the Authority.

No determination has been made as to each participant's proportionate share of fund equity as of June 30, 2015. Upon dissolution of the Authority, all surplus money and property of the Authority will be conveyed or distributed to each member in proportion to all funds provided to the Authority by that member or by the County on behalf of that member during its membership. The following audited financial data is presented as of and for the year ended June 30, 2014 (the most recent data available).

Governmental Activities	
Total Assets	\$ 396,694,637
Total Liabilities	\$ 152,940,022
Total Revenues	\$ 311,595,747
Total Expenses	324,600,955
Changes in Net Position	(13,005,208)
Net Postion, Beginning	256,759,823
Net Position, Ending	\$ 243,754,615

Complete financial statements may be obtained from the Orange County Fire Authority, 1 Fire Authority Road, Irvine, California 92602.

Note 10: Joint Ventures (Continued)

West Communications Financing Authority

The West Communications Financing Authority (Authority) was established December 23, 1996, pursuant to a Joint Exercise of Powers Agreement by the Cities of Seal Beach, Cypress, and Los Alamitos for the purpose of operating a public safety communications center.

The Board of Directors is comprised of three elected officials, one designated by each participating City. Each Director has one vote over budgeting and financial matters. The Authority is a public entity separate from the Cities, and is not included in the financial statements of those entities.

Each City pays a contractual fee to the Authority, which consists of personnel costs, capital expenditures and reserves to fund accrued employee leave and equipment purchases. The contractual fee remains stable from year to year. In 2014-2015, the City of Seal Beach paid \$665,981 to the Authority.

Audited information is not available. Unaudited financial information may be obtained from the City of Cypress, 5275 Orange Avenue, Cypress, California, 90630.

Note 11: Liability, Property and Workers Compensation Protection

a. Description of Self-Insurance Pool Pursuant to Joint Powers Agreement

The City of Seal Beach is a member of the California Joint Powers Insurance Authority (the Authority). The Authority is composed of 118 California public entities and is organized under a joint powers agreement pursuant to California Government Code §6500 et seq. The purpose of the Authority is to arrange and administer programs for the pooling of self-insured losses, to purchase excess insurance or reinsurance, and to arrange for group purchased insurance for property and other lines of coverages. The California JPIA began covering claims of its members in 1978. Each member government has an elected official as its representative on the Board of Directors. The Board operates through a nine-member Executive Committee.

b. Self-Insurance Programs of the Authority

Each member pays an annual contribution at the beginning of the coverage period. A retrospective adjustment is then conducted annually thereafter, for coverage years 2012-13 and prior. Retrospective adjustments are scheduled to continue indefinitely on coverage years 2012-13 and prior, until all claims incurred during those coverage years are closed, on a pool-wide basis. This subsequent cost re-allocation among members, based on actual claim development, can result in adjustments of either refunds or additional deposits required. Coverage years 2013-14 and forward are not subject to routine annual retrospective adjustment.

The total funding requirement for self-insurance programs is estimated using actuarial models and pre-funded through the annual contribution. Costs are allocated to individual agencies based on exposure (payroll) and experience (claims) relative to other members of the risk-sharing pool. Additional information regarding the cost allocation methodology is provided below.

Note 11: Liability, Property and Workers Compensation Protection (Continued)

Liability

In the liability program claims are pooled separately between police and general government exposures. (1) The payroll of each member is evaluated relative to the payroll of other members. A variable credibility factor is determined for each member, which establishes the weight applied to payroll and the weight applied to losses within the formula. (2) The first layer of losses includes incurred costs up to \$30,000 for each occurrence and is evaluated as a percentage of the pool's total incurred costs within the first layer. (3) The second layer of losses includes incurred costs from \$30,000 to \$750,000 for each occurrence and is evaluated as a percentage of the pool's total incurred costs within the second layer. (4) Incurred costs from \$750,000 to \$50 million, are distributed based on the outcome of cost allocation within the first and second loss layers.

For 2014-15 the Authority's pooled retention is \$2 million per occurrence, with reinsurance to \$20 million, and excess insurance to \$50 million. The Authority's reinsurance contracts are subject to the following additional pooled retentions: (a) 50% of the \$2.5 million annual aggregate deductible in the \$3 million x/s \$2 million layer, (b) 50% quota share of the \$3 million x/s \$2 million layer, and (c) \$3 million annual aggregate deductible in the \$5 million x/s \$10 million layer.

The overall coverage limit for each member, including all layers of coverage, is \$50 million per occurrence. Costs of covered claims for subsidence losses have a sub-limit of \$30 million per occurrence.

Workers' Compensation

In the workers' compensation program claims are pooled separately between public safety (police and fire) and general government exposures. (1) The payroll of each member is evaluated relative to the payroll of other members. A variable credibility factor is determined for each member, which establishes the weight applied to payroll and the weight applied to losses within the formula. (2) The first layer of losses includes incurred costs up to \$50,000 for each occurrence and is evaluated as a percentage of the pool's total incurred costs within the first layer. (3) The second layer of losses includes incurred costs from \$50,000 to \$100,000 for each occurrence and is evaluated as a percentage of the pool's total incurred costs within the second layer. (4) Incurred costs from \$100,000 to statutory limits are distributed based on the outcome of cost allocation within the first and second loss layers.

For 2014-15, the Authority's pooled retention is \$2 million per occurrence, with reinsurance to statutory limits under California Workers' Compensation Law.

Employer's Liability losses are pooled among members to \$2 million. Coverage from \$2 million to \$5 million is purchased as part of a reinsurance policy, and Employer's Liability losses from \$5 million to \$10 million are pooled among members.

Note 11: Liability, Property and Workers Compensation Protection (Continued)

c. Purchased Insurance

Pollution Legal Liability Insurance

The City of Seal Beach participates in the pollution legal liability insurance program which is available through the Authority. The policy covers sudden and gradual pollution of scheduled property, streets, and storm drains owned by the City of Seal Beach. Coverage is on a claims-made basis. There is a \$50,000 deductible. The Authority has a limit of \$50 million for the 3-year period from July 1, 2014 through July 1, 2017. Each member of the Authority has a \$10 million sub-limit during the 3-year term of the policy.

Property Insurance

The City of Seal Beach participates in the all-risk property protection program of the Authority. This insurance protection is underwritten by several insurance companies. City of Seal Beach property is currently insured according to a schedule of covered property submitted by the City of Seal Beach to the Authority. City of Seal Beach property currently has all-risk property insurance protection in the amount of \$46,911,682. There is a \$5,000 deductible per occurrence except for non-emergency vehicle insurance which has a \$1,000 deductible. Premiums for the coverage are paid annually and are not subject to retrospective adjustments.

Earthquake and Flood Insurance

The City of Seal Beach purchases earthquake and flood insurance on a portion of its property. The earthquake insurance is part of the property protection insurance program of the Authority. City of Seal Beach property currently has earthquake protection in the amount of \$46,795,179. There is a deductible of 5% per unit of value with a minimum deductible of \$100,000. Premiums for the coverage are paid annually and are not subject to retrospective adjustments.

Crime Insurance

The City of Seal Beach purchases crime insurance coverage in the amount of \$3,000,000 with a \$2,500 deductible. The fidelity coverage is provided through the Authority. Premiums are paid annually and are not subject to retrospective adjustments.

d. Adequacy of Protection

During the past three fiscal years, none of the programs of protection experienced settlements or judgments that exceeded pooled or insured coverage. There were also no significant reductions in pooled or insured liability coverage in 2014-15.

Note 12: Other Post-Employment Benefits Other than Pension

Plan Descriptions

The City of Seal Beach provides postretirement medical benefits to employees who retire directly from the City under CalPERS under a single-employer defined benefit post-employment benefits plan. Eligible retirees can continue participation in the City medical plans (PEMHCA). For miscellaneous retirees, the City contributes up to a capped dollar amount which varies by bargaining unit, medical coverage, and years of service. For police safety retirees, the City contribution rate varies by date of hire and date of retirement.

City's Funding Policy

The contribution requirements of plan members and the City are established and may be amended by City Council. For fiscal year 2014-15, the City contributed \$502,000 to the plan, including premiums.

The City uses CalPERS to hold irrevocable employer contributions in a trust restricted for benefits under this program. CalPERS publishes a publically available financial report conforming to GASB Statement No. 43 that includes separately issued financial statements for the CalPERS OPEB Trust. Copies of PERS' annual financial reports for its OPEB Trust may be obtained from its executive office at 400 "Q" Street, Sacramento, California 95811.

Annual OPEB Cost and Net OPEB Obligation

The City's annual other postemployment benefit (OPEB) cost (expense) for each plan is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover the value of employer promised benefits expected to be earned or allocated for each fiscal year and to amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years. The City's annual OPEB cost for the current year and the related information for the plan are as follows:

Annual required contribution	\$ 326,401
Interest on net OPEB obligation	(23,114)
Adjustment to annual required contribution	33,675
Annual OPEB cost (expense)	336,962
Contributions made (including premiums paid)	693,599
Increase (decrease) in net OPEB obligation	(356,637)
Net OPEB obligation (asset) – beginning of year	 (295,009)
Net OPEB obligation (asset) – end of year	\$ (651,646)

Note 12: Other Post-Employment Benefits Other than Pension (Continued)

The City's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for 2015 and the two preceding years were as follows:

				Net OPEB				
			Percentage of	OPEB				
Fiscal Year	Annual		OPEB Cost	Obligation				
Ended	OF	PEB Cost	Contributed		(Asset)			
6/30/2013	\$	507,830	98.0%	\$	(301,116)			
6/30/2014		332,508	88.7%		(295,009)			
6/30/2015		336,962	193.4%		(651,646)			

Funded Status and Funding Progress

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future. The schedule of funding progress, presented below, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for the benefits.

Schedule of Funding Progress (dollar amounts in thousands) (latest information available)

			Αc	ctuarial	Un	funded			UAAL as a
Actuarial	Act	tuarial	A	ccrued		AAL	Funded	Covered	Percentage of
Valuation	Va	lue of	Liability (AAL)-		(UAAL)		ratio	Payroll	covered payroll
Date	Ass	ets (a)	Entr	y Age (b)		(b-a)	(a/b)	(c)	((b-a)/c)
1/1/2009	\$	447	\$	6,486	\$	6,039	7%	\$ 6,997	86.31%
6/30/2011		1,738		6,902		5,164	25%	8,083	63.89%
7/1/2013		2,672		6,657		3,985	40%	8,903	44.76%

Note 12: Other Post-Employment Benefits Other than Pension (Continued)

Actuarial Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial assets, consistent with the long-term perspective of the calculations. Significant methods and assumptions were as follows:

Actuarial valuation date	7/1/2013
Actuarial cost method	Entry Age Normal
Amortization method	Level percentage of payroll
Amortization period	30 years
Asset valuation method	5-year smoothed market
Actuarial assumptions:	
Investment rate of return*	7.25%
Projected salary increases*	2.75%
* Includes an inflation assumption of 4%	

Note 13: Commitments and Contingencies

Construction Commitments

As of June 30, 2015, budgeted funds committed for major capital projects included the following:

	Contract Amount	Expenditures To Date		nexpended Balance
BG-0904: New Swimming Pool: Westbert+White Inc.	\$ 238,930	\$	5,576	\$ 233,354
BG-1302: Emerg. Backup Power: Fakouri Electrical	455,060		87,880	367,180

Total	\$ 6,865,230	\$	5,248,721	\$ 1,616,508

NOTES TO FINANCIAL STATEMENTS (CONTINUED) JUNE 30, 2015

Note 14: Extraordinary Gain

During the year ended June 30, 2015, the Successor Agency transferred land and buildings to the City resulting in an extraordinary gain for the City in the amount of \$694,585.

Note 15: Net Position Restatement

Net Position has been restated by \$23,594,076 as a result of the implementation of GASB Statement 68 and recognition of the City's proportionate share of the net pension liability.

Note 16: Subsequent Events

On July 1, 2015, the City issued Community Facilities District No. 2002-01 (Heron Pointe) 2015 Special Tax Refunding Bonds in an aggregate principal amount of \$3,480,000 to defease and refund the Community Facilities District No. 2002-01 (Heron Pointe) Special Tax Bonds, Series 2005.

Note 17: Successor Agency Trust for Assets of Former Redevelopment Agency

On December 29, 2011, the California Supreme Court upheld Assembly Bill 1X 26 ("the Bill") that provides for the dissolution of all redevelopment agencies in the State of California. This action impacted the reporting entity of the City of Seal Beach that previously had reported a redevelopment agency within the reporting entity of the City as a blended component unit.

The Bill provides that upon dissolution of a redevelopment agency, either the city or another unit of local government will agree to serve as the "successor agency" to hold the assets until they are distributed to other units of state and local government. On February 13, 2012, the City Council elected to become the Successor Agency for the former redevelopment agency in accordance with the Bill.

After enactment of the law, which occurred on June 28, 2011, redevelopment agencies in the State of California cannot enter into new projects, obligations or commitments. Subject to the control of a newly established oversight board, remaining assets can only be used to pay enforceable obligations in existence at the date of dissolution (including the completion of any unfinished projects that were subject to legally enforceable contractual commitments).

In future fiscal years, successor agencies will only be allocated revenue in the amount that is necessary to pay the estimated annual installment payments on enforceable obligations of the former redevelopment agency until all enforceable obligations of the prior redevelopment agency have been paid in full and all assets have been liquidated.

The Bill directs the State Controller of the State of California to review the propriety of any transfers of assets between redevelopment agencies and other public bodies that occurred after January 1, 2011. If the public body that received such transfers is not contractually committed to a third party for the expenditure or encumbrance of those assets, the State Controller is required to order the available assets to be transferred to the public body designated as the successor agency by the Bill.

Management believes, in consultation with legal counsel, that the obligations of the former redevelopment agency due to the City are valid enforceable obligations payable by the successor agency trust under the requirements of the Bill. The City's position on this issue is not a position of settled law and there is considerable legal uncertainty regarding this issue. It is reasonably possible that a legal determination may be made at a later date by an appropriate judicial authority that would resolve this issue unfavorably to the City.

NOTES TO FINANCIAL STATEMENTS (CONTINUED) JUNE 30, 2015

Note 17: Successor Agency Trust for Assets of Former Redevelopment Agency (Continued)

In accordance with the timeline set forth in the Bill (as modified by the California Supreme Court on December 29, 2011) all redevelopment agencies in the State of California were dissolved and ceased to operate as a legal entity as of February 1, 2012.

a. Cash and investments

Cash and investments reported in the accompanying financial statements consisted of the following:

Cash and investments pooled with the City
Cash and investments with fiscal agent

\$ 677,261
740,692
\$ 1,417,953

c. Long-term Debt

Long-term liability activity for the year ended June 30, 2015, was as follows:

	Balance			Balance	Due Within	
	July 1, 2014	Additions	Deletions	June 30, 2015	One Year	
Fiduciary Activities						
2000 Tax Allocation Bonds Series A	\$ 3,895,000	\$ -	\$ 470,000	\$ 3,425,000	\$ 495,000	
2000 Tax Allocation Bonds Series B	265,000		45,000	220,000	50,000	
Total bonds	4,160,000	-	515,000	3,645,000	545,000	
Advance from Sewer Fund	1,200,000		247,656	952,344		
Total	\$ 5,360,000	\$ -	\$ 762,656	\$ 4,597,344	\$ 545,000	

A description of the individual issues of bonds of the Successor Agency of the former redevelopment agency outstanding as of June 30, 2015, follows:

Agency 2000 Tax Allocation Refunding Bonds

On December 20, 2000, the Agency issued 2000 Tax Allocation Refunding Bonds for the Riverfront Redevelopment Project in the amounts of \$8,520,000 and \$685,000 for Series A and B, respectively. Interest rate on the bonds varies from 4% to 5.375%. The Agency used the proceeds of Series A Bonds to finance the refunding and defeasance of \$1,380,000 of 1986 Tax Allocation Bonds and \$3,715,000 of 1991 Tax Allocation Bonds.

Series B Bonds were used to pay bond issuance costs and finance certain redevelopment activities of the Agency.

The Series A Bonds are payable exclusively from Tax Revenues and certain funds and accounts held under the indenture. Series B Bonds are to be paid exclusively from Surplus Tax Revenues and certain funds and accounts held under the indenture.

The balances in the Series A and B bonds outstanding at June 30, 2015, were \$3,895,000 and \$265,000 respectively. This liability was transferred to the Successor Agency upon dissolution of the redevelopment agency.

Note 17: Successor Agency Trust for Assets of Former Redevelopment Agency (Continued)

The annual debt service requirements on the tax allocation bonds as of June 30, 2015, are as follows:

	20	000 Tax Alloc	Refunding	2	2000 Tax Allocation Refunding					
Year Ending		Bonds,	s A		Bonds, Series B					
June 30,		Principal	Interest			F	rincipal	Interest

On June 14, 2012, Moody's Investors Service ("Moody's") downgraded all California tax allocation bonds rated 'Baa3' and above. As such, the Bonds' insured rating was downgraded from 'A3' to 'Ba1' and underlying rating was downgraded from 'A3' to 'Ba1'. According to Moody's, all California tax allocation bond ratings remain on review for possible withdrawal.

Advance from the City

In 2012, the sewer fund advanced \$1,200,000 to the former redevelopment agency. This was subsequently denied by the Department of Finance (DOF). The City appealed the DOF decision and, in 2014, this advance was approved. Interest on the advance is consistent Local Agency Investment Fund (LAIF) interest rate at the time the Oversight Board made the finding that the advance was for legitimate redevelopment purposes, which is at 0.00367%. The balance of the advance at June 30, 2015, was \$952,344.

d. Pledged Revenue

The Successor Agency has debt issuances outstanding that are collateralized by the pledging of certain revenues. The amount and term of the remainder of these commitments are indicated in the debt service to maturity tables presented in the accompanying notes. The purposes for which the proceeds of the related debt issuances were utilized are disclosed in the debt descriptions in the accompanying notes. For the current year, debt service payments as a percentage of the pledged gross revenue (or net of certain expenses where so required by the debt agreement) are indicated for the five months the Successor Agency obtained the former Redevelopment Agency tax allocation debt in the table below. These percentages also approximate the relationship of debt service to pledged revenue for the remainder of the term of the commitment:

			Ar	nual Debt			
			Servio	ce Payments	Debt Service as a		
Description of Pledged	Anr	nual Amount	(of all	debt secured	Percentage of Pledged		
Revenue	of Revenue		by the	his revenue)	Revenue		
		_		_			
Property tax	\$	1,084,135	\$	710,832	65.6%		

NOTES TO FINANCIAL STATEMENTS (CONTINUED) JUNE 30, 2015

Note 17: Successor Agency Trust for Assets of Former Redevelopment Agency (Continued)

e. Insurance

The Successor Agency is covered under the City of Seal Beach's insurance policies. Therefore, the limitation and self-insured retentions applicable to the City also apply to the Successor Agency. Additional information as to coverage and self-insured retentions can be found in Note 11.

f. Extraordinary Loss

During the year ended June 30, 2015, the Successor Agency transferred land and buildings to the City resulting in an extraordinary loss for the Successor Agency in the amount of \$694,585.

Note 1: Budgetary Comparison Information

a. Budget Data

General Budget Policies

Budgets for the general, special revenue, debt service, and capital projects funds are adopted on a basis consistent with generally accepted accounting principles (GAAP). The City Council approves each year's budget submitted by the City Manager prior to the beginning of the new fiscal year. Public hearings are conducted prior to its adoption by the Council.

Supplemental appropriations, where required during the period, are also approved by the Council. The City Manager may make transfers of appropriations within and between functions and programs, in accordance with Fiscal Policy, as long as such transfers do not increase the adopted annual budget appropriations. Budget amendments which exceed total adopted appropriations require the approval of the City Council. The legal level of budgetary control is at the function level. During the year, several supplemental appropriations were necessary. At fiscal year-end, all operating budget appropriations lapse.

b. The following funds do not have a legally adopted budget:

Traffic Relief Grant Fund

c. Excess of expenditures over appropriations are as follows:

Expenditures for the year ended June 30, 2015, exceeded the appropriations of the General and Major Special Revenue Funds are as follows:

Fund	Expenditures	Appropriations	Excess			
General Fund:						
General Government	\$ 5,280,473	\$ 5,253,093	\$ 27,380			
Community Development	905,313	889,100	16,213

Comprehensive Annual Financial Report

Year Ended June 30, 2015

STATISTICAL SECTION

This part of the City of Seal Beach comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the government's overall financial health.

TABLE OF CONTENTS

Figure stall Taxable	PAGE
Financial Trends These schedules contain trend information to help the reader understand how the government's financial performance and well-being have changed over time.	106
Revenue Capacity These schedules contain trend information to help the reader assess the government's most significant current local revenue source, the property tax.	116
Debt Capacity These schedules contain present information to help the reader assess the affordability of the government's current levels of outstanding debt and the government's ability to issue additional debt in the future.	122
Demographic and Economic Information These schedules offer demographic and economic indicators to help the reader understand the environment within which the government's financial activities take place.	129
Operating Information These schedules contain service and infrastructure data to help the reader understand how the information in the government's financial report relates to the services the government provides and the activities it performs.	132

2015	4,706,609,532	184,449,987	4,891,059,519

The City of Seal Beach has elected to show only ten years of data for this schedule.

NOTE:

In 1978 the voters of the State of California passed Proposition 13 which limited property taxes to a total maximum rate of 1% based upon the assessed value of the property being taxed. Each year, the assessed value of property may be increased by an "inflation factor" (limited to a maximum increase of 2%). With few exceptions, property is only re-assessed at the time it is sold to a new owner. At that point, the new assessed value is reassessed at the purchase price of the property sold. The assessed valuation data shown above represents the only data currently available with respect to the actual market value of taxable property and is subject to the limitations described above.

Source: County of Orange, Auditor - Controller Assessed Valuations Detail

¹ Beginning with the fiscal year ended June 30, 2003, exemptions are netted directly against the individual property categories.

General bonded debt is debt payable with governmental fund resources and genobligation bonds recorded in enterprise funds (of which, the City has none).

NOTE:

On December 29, 2011, the California Supreme Court upheld Assembly Bill 1X26 that provides for the dissolution of all redevelopment agencies in the State of California. The Redevelopment Agency was dissolved on February 1, 2012. The debt was transferred to the Successor Agency to the Seal Beach Redevelopment Agency
